ABOUT ME

A Software Engineering graduate with an enthusiastic mind, always curious to explore new areas of technology and pick up new skills along the way. I enjoy the process of building things from the ground up and understanding how they work. Outside of that, I like to unwind with a bit of basketball. I adapt quickly to new situations and enjoy the challenge of learning something new.

EDUCATION

BEng(Hons) in Software Engineering (2022 - 2026)

Informatics Institute of Technology Sri Lanka affiliated with the University of Westminster

Foundation Certificate in Higher Education (2022)

Informatics Institute of Technology Sri Lanka

GCE A/L - 2020(2021)

Lyceum International School Panadura

GCE O/L - 2017

Lyceum International School Panadura

EXPERIENCE

Software Engineering Intern - D Help Hub (August 2024 - August 2025)

- Contributed to the development and implementation of an ERP System
- Gaining hand-on experience with ASP.NET Core MVC, SQL Server, PHP and MySQL, Contributing to both front-end and back-end development tasks.

PROJECTS

- **ChagasVision** - A Deep Learning ECG Screening System for detecting Chagas disease from 12-lead ECGs, featuring explainable AI (Grad-CAM) visualizations via a clinical web app.
Tech Stack - Python, PyTorch, Streamlit, Grad-CAM
- **Road-Watcher** - An Accident Detection And Alert System that detects accidents from CCTV footage and sends an alert to the relevant authorities via a secure web site.
Tech Stack - React, TypeScript, Flask, Firebase and YOLO v8
- **Westminster Shopping Manager** - This project aimed to develop a comprehensive system for managing products using both a console-based interface for administrative tasks and a graphical user interface (GUI) for user interactions.
Tech Stack - Java, Java Swing

- **Theatre Booking System** - Developed an application using OOP concepts with the goal of effectively managing and controlling the distribution of seats in a theatre. This programme makes it easier to handle reservations for seats
Tech Stack - Java
- **Spark Entertainment** - Developed the frontend of a website for movies, tv series and anime.
Tech Stack - HTML,CSS and JavaScript
- **University Grading System** - Developed a thorough Python application specifically for students, allowing them to forecast their academic results at the end of each school year.
Tech Stack - Python
- **Flag Guessing Game** - The application developed will be displaying country flags and the user have to guess the name of country using different modes.
Tech Stack - Kotlin
- **Football Club App** - The application developed will be helping users to obtain information about football clubs. The application will be using a Web service and the Room Library to save information about clubs.
Tech Stack - Kotlin
- **Sliding puzzles** - The application uses path finding to solve a type of puzzle(Maze) that occurs in many video games .
Tech Stack - Java

SKILLS

SOFT SKILLS

- Time Management
- Team Player
- Hard Worker
- Fast Learner
- Leadership Skills

TECHNICAL SKILLS

- | | | |
|--------------|-------------|--------------------------------|
| • HTML | • Bootstrap | • React |
| • CSS | • jQuery | • PHP |
| • JavaScript | • AJAX | • Flask |
| • Python | • Java | • SQL |
| • Java | • Kotlin | • ASP.Net(MVC &Cross platform) |
| | | • C# |

COMPETITIONS

- Participated in **CodeSprint 8**, representing team RAM squad organized by the IEEE Student Branch of in collaboration with the IEEE Computer Society Student Branch Chapter of and the IEEE Women in Engineering Affinity Group of IIT. - **2024**

EXTRA CURRICULAR ACTIVITIES

- Athletics - Lyceum, IIT
- Basketball - IIT
